<https://www.linkedin.com/in/kapil-khattar-2ba18bb7/>

Data Engineer with 4+ years of professional IT experience in Data Migration, ETL Development and Database Management activities. Recognized consistently for performance excellence. Strong knowledge on Salesforce CRM Data Migrations, Informatica and SQL backed by specialization in Business Intelligence.

CURRENT PROJECT

- Working on integration of a Global Salesforce CRM Platform by on-boarding multiple Member Firms globally. Led 8 Deployments in Production. This would help in creating a global ecosystem and would have a huge impact on the Firm's decision-making process.
- Leading on-boarding of two different Member Firms as the main POC and working closely with Deployment Leads for collaborating across teams to ensure the deliverables on time by maintaining strong communication. Proactively highlight any Delays/Blockers/ Risks which might impact the deliverable dates.
- Creation of Automation scripts / pipelines for Data Cleansing and Migration of Data to the Target Systems after due diligence checks in terms of Data Quality and testing in different Salesforce Environments. Regular follow up with Client for various data issues and data quality cleanup process.

PROFESSIONAL EXPERIENCE

Deloitte USI, Gurgaon / Data Engineer - Consultant

(01/2021) -Present

- Led the Data Migration Thread for a Salesforce CRM Project for Tele-communication products selling Organization.
- Automated the Data Cleansing process using SQL which reduced manual team efforts by 40% from 5 days to 2 days. Led and took Ownership for Requirements Gathering, preparing Mapping Documents, creation of ETL Pipelines and scripts from scratch.
- Prepared detailed Technical and Functional documents which helped in training new team resources and increased the efficiency for Knowledge Transition sessions by 40%. These documents were also presented to Clients as Critical deliverables. Took end-to-end ownership of all Objects and worked as a Collaborator.
- Client facing role: Pro-actively connected with Client to highlight Data Quality issues and delivered Optimized solutions that impacted Client Business KPI by reducing the number of Data Quality issues by 30%.
